

Little traffic on rural roads for 25 miles then congestion increases as the route crosses major arteries of the Washington to New York City northeast corridor. Two miles of freeway shoulder at mile 35.7 should not be a problem as signs advise motorists that bikes may be present.

ref	mile	turn		elevation
TS52	0.0	East	Continue on SR 144 /Old National Pike, left out of TS52.	782
